

Manuscriptedit

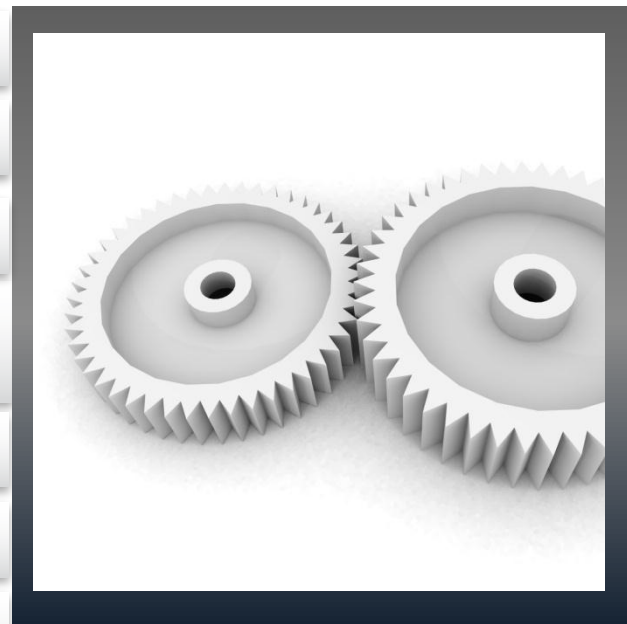

Your online partner for scientific & English editing, proofreading, writing/ rewriting and publication support services

Who are we ?

Online service portal of Reseapro Scientific Services Pvt. Ltd.

- 1** Providing online editing & proofreading services
- 2** Incorporated in Feb 2009; Companies Act 1956
- 3** Head office located in Bhubaneswar, India
- 4** Top Scientists, doctors & IT experts with about 20 years experience in Board of Directors
- 5** 350 Expert subject editors & native English editors
- 6** Large client-base in over 60 countries
- 7** VeriSign trusted company with secured interface

Our Clients

- Individual researchers, doctors, students
- Publishing houses
- Pharmaceutical companies
- Healthcare industries
- Universities
- Research Groups/institutes

Service offerings

Group of in-house and online editors

Scientific Editing & English proofreading

Covers all Subject fields of science engineering, medical, academic, social sciences, art, history, culture

- Research papers
- Medical papers
- Thesis/ dissertations
- Research proposals
- Grant applications
- Term papers
- Student essays
- Resume
- Personal statements
- Promotional sales brochures
- Poster design

Medical writing & Editing

- Abstract
- Literature Review
- Scientific research papers & journal articles
- Thesis/ dissertation
- Case study
- Clinical study reports/ documentation
- Medical Protocol
- Product inserts
- Monograph
- Continuing medical education (CME)
- Business Proposals
- Grant applications
- Promotional /sales materials
- Slide kit / Power Point Presentation
- Press releases
- Feature articles
- Cover letter for journals
- Clinical study reports/ documentation
- Product packaging
- Newsletter
- Brochures
- Posters

Editing example: Delivered as Track changed manuscript

The screenshot displays the Microsoft Word interface with the 'Track Changes' feature enabled. The document is titled '47_seo-Edited [Compatibility Mode] - Microsoft Word'. The ribbon shows the 'Home' tab with various font and paragraph options. The document content is divided into two columns. The left column contains the 'INTRODUCTION' section, which has been heavily edited. The right column contains a paragraph of text, also with several changes tracked. Two comments are visible on the right side of the document, pointing to specific changes. The status bar at the bottom indicates 'Page: 1 of 9', 'Words: 4,554', and 'Track Changes: On'.

INTRODUCTION

Rudder cavitations ~~is~~^{are} frequently observed in large container ships running ~~at high speed~~^{fast} and ~~can potentially cause may cause~~^{can potentially} serious damages to the rudder device ~~of the ships and which is~~^{consequently are} detrimental to the safety and cost-effectiveness ~~of the ship~~^{of the ship}. ~~Ships primarily cruise in a straight direction at high speed, which are the conditions under which~~^{Ships primarily cruise in a straight direction at high speed, which are the conditions under which} ~~The rudder cavitation becomes more severe and occurs more often and with greater severity, when a ship is cruising straight with high speed than for example when maneuvering slowly with a large rudder angle, and ships operate mostly in the former condition.~~^{The rudder cavitation becomes more severe and occurs more often and with greater severity, when a ship is cruising straight with high speed than for example when maneuvering slowly with a large rudder angle, and ships operate mostly in the former condition.} Rudder cavitations occur frequently in ~~the vicinities of the two regions of the rudder;~~^{the vicinities of the two regions of the rudder;} (1) the leading edge of ~~thea~~^{the} rudder, and (2) the gap between the fixed ~~portion~~^{portion} (horn and pintle) and ~~close near to~~^{close near to} the movable portion. The former type of cavitation can be mitigated ~~frequently~~^{frequently} by modifying the rudder section (Kim et al., 2008, Shen et al., 1997, Song et al., 2003). The latter ~~type of cavitation~~^{type of cavitation} can be ~~diminished~~^{diminished} ~~countered~~^{countered} by reducing ~~the~~^{the} gap clearance. However, a substantial reduction in gap clearance ~~mayean cause raise~~^{may cause} serious technical difficulties in the rudder fitting process, and thus ~~neecessitates~~^{neecessitates} other means to ~~moderatecircumvent~~^{moderate} the gap cavitation ~~are necessitated~~^{are necessitated}. ~~As a resultFor the purpose,~~^{As a result} several studies have ~~developedbeen done on the mechanical~~^{developed}

Kim (2008) suggested a cam device for gap flow blocking, ~~while and Rhee et al. (2010) used simulation experiments and computations to demonstrate~~^{Rhee et al. (2010) demonstrated} ~~a that the device capable ofean suppressing the gap cavitation through a series of model experiments and computations.~~^{a that the device capable ofean suppressing the gap cavitation through a series of model experiments and computations.} However, ~~thise~~^{this} device ~~is noteannot be~~^{is not} easily mounted in the rudder system of a new ship, ~~withand~~^{without} the condition ~~becomes worseening~~^{becomes worse} if the ship is already in service. Boo et al. (2004) investigated the characteristics of ~~the~~^{the} rudder cavitation at various Reynolds numbers, and examined the effectiveness of a half circular shaped blocking bar placed ~~inat~~ⁱⁿ the middle of a gap. ~~AHe has shown that~~^{He has shown that} modest reductions in gap cavitation ~~wasare~~^{was} achiev~~ed~~^{able} with ~~thise~~^{this} device. ~~Furthermore, Fthe authors of the current study have also havepreviously showna~~^{Furthermore, the authors of the current study have also havepreviously shown} that a pair of blocking bars symmetric to the center plane can enhance blocking performance of ~~the~~^{the} gap flow, if attached on the convex surface of ~~the~~^{the} moving portion. The bars can be placed near the outer edges of the gap, ~~which is~~^{which is} easily accessible even at the maximum rudder angle, ~~allowing to allow~~^{allowing} simple installation of the device during routine ~~ship~~^{ship} maintenance ~~of a ship~~^{of a ship}.

~~Furthermore, Nnumerical computations have been done to have shown~~^{Furthermore, Numerical computations have been done to have shown} that a jet flow injection inside the gap can reduce the flow within ~~the rudder system~~^{the rudder system}. In a previous study

Editors & medical writers

- ☐ 350 Expert subject editors & native English editors.
- ☐ In-house and online contractual editors from top universities.
- ☐ Masters, PhD and post-doctoral level editors.
- ☐ Highly experienced and published in peer reviewed journals.
- ☐ Familiar with APA, MLA, AMA style writing.
- ☐ Some of them are peer reviewers and Editors of international journals.
- ☐ Members of professional societies: American Medical Writers Association (AMWA), European Medical Writers Association (EMWA), Council of science editors (CSE)

Editor recruitment & training

In-house & online editors

Recruitment

- ☐ 3 step screening process
- ☐ Rate of candidate selection is less than 5%

Training

- ☐ APA and MLA style writing
- ☐ English language training
- ☐ Editing tools
- ☐ Regulatory guidelines

Robust online interfaces

The screenshot displays the 'Submit Manuscript' page of the ManuscriptEdit website. At the top, a dark navigation bar contains five links: 'SUBMIT MANUSCRIPT', 'VIEW ORDER SUBMITTED', 'QUOTE', 'COUPON CENTER', and 'MY ACCOUNT'. Below this, a red sidebar on the left lists various services: 'ES', 'ng', 'proposals', 'Scientific', 'ES', 'RVICES', and 'OPMENT'. The main content area has a red header 'Submit Manuscript' and a sub-header 'Choose Service'. A text prompt reads: 'Click on the relevant services below for submitting your manuscript'. Below this prompt, there are eight buttons arranged in two columns: 'Editing Service', 'Writing Service', 'Publication Support', 'Formatting Service' on the left, and 'Design & Development', 'Package Service', 'Translation Service', 'Customized Service' on the right.

Editing Services

Substantive Editing

The substantive editing service at Manuscriptedit.com involves:

- ✓ thorough and comprehensive revision of the manuscript content and incorporation of substantive changes to the text.
- ✓ checking the manuscript's English language for spelling, vocabulary, grammar and punctuation.
- ✓ rephrasing & revising sentence structure, improving word choice.
- ✓ adjusting the writing style to make it consistent and logical and conform to a chosen standard.
- ✓ improving the organization and quality of communication.
- ✓ triple-checks to improve the clarity and logic of presentation, and most importantly ensure that the intent of the author is presented correctly.
- ✓ eliminating repetitions, to ensure continuity and logical presentation of the authors' thoughts and making overall improvement of the manuscript.
- ✓ fact checking to verify simple and obvious statement of facts about their accuracy.

Proofreading

The proofreading service at [Manuscriptedit.com](https://www.manuscriptedit.com) involves:

- ✓ reading the manuscript thoroughly & picking up all types of errors present therein,
- ✓ making appropriate corrections of the errors,
- ✓ reviewing the manuscript for appropriate capitalization and punctuation,
- ✓ checking the manuscript for consistent use of abbreviations,
- ✓ checking the manuscript for correct documentation of references.
- ✓ Focusing on checking typing mistakes, missing words, punctuation, capitalization and so forth by proofreaders.
- ✓ checking the manuscript with regard to its layout such as headlines, paragraphs, and illustrations for their correct dimensions and placement, type, etc.

Editing research proposals

The outline of a proposal should:

- ✓ be strong, comprehensive and communicated in a coherent, concise and focused manner.
- ✓ present specific details, i.e. what the research will focus on, what objectives and goals will be accomplished etc.
- ✓ present the methods with which the objectives will be realized.
- ✓ Our expert editors will keep the above points in mind while editing or proofreading your research proposals/ grant applications. The detail of this service at Manuscriptedit.com includes the following:
 - ✓ ensure that your proposal complies with the guidelines and formats of the funding agency as far as possible; but such guidelines should be made available to us.
 - ✓ edit your research proposal for errors in spelling, grammar and punctuation, check for correct choices of words and phrases.
 - ✓ remove superfluous words and repetitions, re-organize to improve coherency.
 - ✓ check for clear description and rationale of the experimental methods.
 - ✓ point out obvious scientific discrepancies, and review the tables, figures and legends.

Full Translation & Scientific Editing

The salient features of our translation service are as follows:

- ✓ translation done by native speakers with good English knowledge
- ✓ translation using the right terminology, tone and style for your need.
- ✓ we ensure to deliver the translated manuscript on time
- ✓ we ensure that the final manuscript in English prepared through this service retains the original content of the document in native language while providing a polished and eloquent presentation that reads as if written by a native English speaker.
- ✓ we have more than 350+ editors and 1000+ translators working for us.

Formatting Services

Camera-ready formatting

Our camera-ready formatting service includes the following:

- ✓ prepare designated layout and formatting style.
- ✓ arrange texts, paragraphs and figures within a specified margin and position.
- ✓ ensure that the manuscript is ready for direct printing by the publisher.
- ✓ if available, use the desired word template for the working document.

Target journal formatting

The target journal formatting service at [Manuscriptedit.com](https://www.manuscriptedit.com) includes the following:

- ✓ format the full manuscript in accordance with the author's guidelines of the journal.
- ✓ ensure the desired line spacing and margin of the journal.
- ✓ arrange texts, paragraphs and figures within a specified margin and position.
- ✓ if available, use the word template of the journal for the working document to ensure correct formatting according to the journal standard.

Equation Building

- ❖ Create mathematical notation for word processing, web pages, desktop publishing, presentations, elearning, and for TeX, LaTeX, and MathML documents.
- ❖ Tools used: MathType, GrindEQ Math

Typesetting & Indexing

Typesetting is an important part of preparing a manuscript for the market. Our professional typesetting service involves enhancing the quality and value of our clients' manuscripts by:

- ✓ reformatting the text and images into the required style.
- ✓ arranging the text, tables and figures on the predefined specifications of page sizes
- ✓ preparing a fully formatted manuscript for direct printing.

Indexing is generally designed to help readers find their way around a document quickly and easily. This is made by preparing a route map for a document. The indexing service at Manuscriptedit covers manuscripts such research papers, books, website, or database. Our indexers will make a systematic list of all the entities for an easy navigation within the manuscript

Publication Support Services

**Journal
Selection**

**Journal
Submission**

**Response to
Reviewers**

**Editorial Support to
Journal Publishers**

Journal Selection

Selects the most appropriate journal on the basis of :

- ☐ Scope of journal
- ☐ Impact factor
- ☐ Target readership
- ☐ Duration of review process
- ☐ Visibility of the journal
- ☐ Cost of publication

Journal Submission

Process of submitting the manuscript to journals:

- ☐ Check whether the language is publication-ready
- ☐ Check if the paper is formatted according to journal guidelines
- ☐ Create author account on the journal website
- ☐ Complete the entire journal submission form and submit the manuscript
- ☐ Provide all details clearly
- ☐ Monitor progress of submission
- ☐ Correspond with journal editor

Response to reviewers

Following details will be performed:

- ☐ Interpret the reviewer's comments,
- ☐ Make desired revision of the response written by the author
- ☐ Check the response for correct tone, and perform English editing
- ☐ Edit the cover letter to be submitted with the response
- ☐ Clearly communicate and make point-wise response to reviewer's queries

Editorial support to journal publishers

Manuscriptedit.com acts as an intermediary between authors and the journal publisher. We do the following work for the journal publisher:

- ☐ Obtain all accepted manuscripts from the journal publisher.
- ☐ Complete formatting and typesetting of texts, tables and figures conforming to the journal standard.
- ☐ Directly communicate with the authors and obtain best quality figures if necessary.
- ☐ Carry out iterative editing until the manuscript is publication-ready.
- ☐ Prepare galley proof of the document and communicate with authors for proofreading.
- ☐ Return the "corrected proof" to the journal publisher.

Publication Support Packages

Premium Package

- ✓ Substantive Editing
- ✓ Journal Selection
- ✓ Target Journal Formatting
- ✓ Figure Preparation
- ✓ Journal Submission
- ✓ Response to Reviewers

(129,800 YEN | 10,000 YEN
extra for each 1000
words additional.)

Advanced Package

- ✓ Substantive Editing
- ✓ Journal Selection
- ✓ Target Journal Formatting
- ✓ Journal Submission

(89,800 YEN | 8,000 YEN
extra for each 1000
words additional.)

Standard Package

- ✓ Journal Selection
- ✓ Target Journal Formatting
- ✓ Journal Submission

(69,800 YEN | 6,000 YEN
extra for each 1000
words additional.)

Benefits of using our Publication Support packages

- ✓ Professional touch: You focus your time and energy on research; we will handle your publication steps with a professional touch.
- ✓ End-to-end package: Depending on the package chosen, we will help you in each step of the publication process starting from editing and polishing your manuscript's English, journal formatting, journal selection, and the cumbersome submission process as well as ensure that you have addressed all the journal reviewers' comments in your response.
- ✓ Experienced and published editors: Your manuscript will be handled by editors with experience in peer-reviewing and publishing in international journals.
- ✓ Subject expert comments and suggestions: For Premium and Advanced packages, our subject expert editors will provide comments and suggestions to improve the quality of your manuscript's communication and organization.
- ✓ Fast and reliable service: You can rely on us with regard to delivering our services to you on time.
- ✓ Post-delivery assistance: We continue to engage with you and provide support in every stage after delivering our services to you.

A photograph of two hands shaking in a firm grip, symbolizing a business agreement or partnership. The hands are wearing white dress shirts with visible cuffs. The background is a light, neutral color. A semi-transparent white rectangular box is overlaid on the center of the image, containing the text 'THANK YOU' in bold red capital letters. In the bottom right corner, a silver and black pen lies on a white surface.

THANK YOU
